

What will it cost to have a Project Heart Start Training in my company?

The annual Project Heart Start (PHS) event in June is FREE to the public and made possible through generous donations and sponsorships. You can arrange to offer PHS non-certification training sessions in your organization or company as well. We will assist you in setting this up (please check [“Want to put on a Project Heart Start training? Here is How”](#) document) and if you are able to recruit and utilize your own PHS facilitators there should be hardly any cost involved. This could however be different if you are setting up a larger event and need to rent AV equipment, provide water for participants or t-shirts for your facilitators. Also if your organization does not have individuals like nurses, EMTs or health and safety officers who could easily be trained to be facilitators we can arrange to bring these facilitators to you and conduct the training for your staff. For that service we will charge \$100.00 for your PHS training of up to 60 people.

If you would like to arrange and schedule a PHS training at your company in the Albuquerque area and DO NOT have your facilitators please contact the PHS Coordinator: Dorothee Hutchinson at 505-843-2814 or dorotheeh@nmhi.com
